

Sampson
Insole Rib Machinery

UPACO
A Worthen Industry
Footwear Products

THE MOST PREFERRED RIB-ATTACHING MACHINERY IN THE WORLD

In addition to insole rib, we provide rib-attaching machines of both the **Sampson** and **Prime** designs that are capable of producing up to 1600 pairs per day. We have machines available for sale, but we also offer low lease options to our Insole Rib customers.

PARTS & SERVICE

As with our rib, we manufacture and recondition all our machinery right here in Nashua, NH. We maintain a full inventory of OEM parts along with stocking inventory in our China and Vietnam locations. In addition to our insole rib products, we manufacture , service, and recondition all of our insole rib attaching machinery here in the USA at one of our Nashua New Hampshire facilities. We provide our customers technical support to help our them achieve troubleshoot and achieve optimal performance. To service our customers worldwide, we maintain an inventory of OEM parts, for all of our various makes and models at our locations in the USA, China, & Vietnam. Our goal is to focus on continuous improvement of the performance of our machinery and parts, so that our customers can operate at the highest efficiency. Our rib layers have been a staple in the Goodyear Welt industry, and through investment into technology and dedication to quality, we hope to do so for many years to come.
